

# WE have a *problem* !!

- 4 million crimes with Eye-Witnesses
- 1,3 million are reported
- 11% are of those are solved
- 85% of them “ in the act”
- 60% of them with civilian participation

Get criminals “in the Act” is the quickest and cheapest way of solving crime with the most results.

Not solved enough

## “Get them in the Act”

- **You can get criminals “ in the act” better by being quicker at the scene and have better information through:**

- **Civilians who want .. and now how to report a crime quickly.**
- **Civilians who want to cooperate .**
- **Autonomous technological systems ( sensors)**
- **Huge amount of Information (open / closed sources)**

$$\frac{S \times I}{BR} = A$$

# ***Community Crime Catch 3C***

Selfregulated Cooperation in the "cloud"

**S X I = A**  
**BR**
