

Agenda

FIA – Madrid: “Management and Service-aware Networking Architectures (MANA)” Session - 9th December 2008

I. Introduction & Invited Talk

11.00 - 11.05 Introduction & Objectives of the MANA session - Alex Galis (UCL, U.K.)

11.05 – 12.00 Invited Talk “Future Internet of Networks and Services”

Jeff Chase (Duke University, USA)

Suzanne Iacono (NSF, USA)

II. Panel on Service-aware Networking Architectures

(Viewpoints and proposals for research directions for Future Internet)

12.00-13.00 Panel (i.e. 10 min short presentations from 4 panellists + Q&A)

Moderator: Henrik Abramowicz (Ericsson, Sweden)

Panellists:

- Krishan Sabnani (Alcatel-Lucent, USA) – for networking architectures
- Jens Zander (KTH, Sweden) - for wireless architectures
- George Pavlou (UCL, U.K.) – for evolutionary service-aware architectures
- Mark Wusthoff (SAP Research, Germany) for service clouds architectures
- Jeff Chase (Duke University, USA)–for clean slate architectures

III. Panel on Self-management of Future Internet

(Viewpoints and proposals for research directions for Future Internet)

14.00-15.00 Panel (i.e. 10 min short presentations from the panellists + Q&A)

Moderator: Alex Galis (UCL, U.K.)

Panellists:

- Marcus Bunner (NEC Research, Germany) - for network management,
- Danny Raz (Google USA and Technion Univ., Israel) – for system management
- Olivier Festor (INRIA, France) - for network and service management
- Joe Butler (Intel, Ireland) - for service management

IV. Conclusions & Proposals for research directions for Future Internet

(Presentation, discussions and approval of the MANA position statement)

15.00-15.15 FIRE Use Cases

15.15-16.00 MANA position statement presentation and discussion

MANA caretakers:

- Alex Galis (UCL, U.K.)
- Marcus Bunner (NEC Research, Germany)
- Henrik Abramowicz (Ericsson, Sweden)

MANA Session Reporter: Alex Galis (UCL, U.K.)
