

# Real World Internet Wrap-up

Alex Gluhak, The University of Surrey

Neeli Prasad, Aalborg University

Srdjan Krco, Ericsson

Manfred Hauswirth, DERI

Mirko Presser, Alexandra Institute A/S

24/11/09

# Summary

- How to handle exceptions (detect and manage them)
- Common FI reference model and taxonomy
  - Reconciled assumptions
  - Gap identification
  - Convergence of ideas
- Event driven communication
  - Publish subscribe based communication
  - Explore synergies with FI community activities
  - General purpose software landscape is not ready yet
- More focus on the Internet as systems-of-systems
  - Solutions should be geared to support pluralism

# Towards Valencia

- Recommendations on cross topics
  - Continue Smart City focused on Environmental sustainability and health
  - FI reference model
  - Trust and provenance
