FIA Valencia Smart Health

Paul Moore / Blanca Jordan

FIA Valencia Smart Health - Goals

- 1) Current status of the eHealth initiatives in the context of the Future Internet will be explained – specifically the PPP eHealth working group
- 2) Overview of the main challenges in the area of eHealth (and mHealth) which can be addressed and resolved by the Future Internet,

Emphasis on the special needs in terms of content implicit to the area of health and medicine. These challenges will be presented from the point of view of the major stakeholders in this domain – society, patients and health professionals.

FIA Valencia Smart Health Agenda

- » PPP WG Smart Health
 - » Speaker from Atos Origin
- » Users – What can FI do for users?, eHealth, mHealth
 - » 2 speakers from Principe de Asturias Hospital Oviedo (Spain), San Raffaele Hospital Milan (Italy) or Ministry of Health Sweden
 - » We need a change in the regulatory frame as well as in users minds. Doctors and patients are users but for a wide adoption of services we need a change in the understanding and mainly in attitude.
- » Online professional content (diseases, statistical models, etc.)
 - » Speaker: To be defined
 - » We should be able to produce a technological framework that at the same time provides effective tools for quality level assurance and that helps to filter the correct content and discard bad content.

FIA Valencia eHealth Proposed Agenda

- » Online Personal Health Systems
 - » Possible speaker: VTT – Dr. Niilo Saranummi
 - » Real experiences, problems for the FI

- » VPH (Virtual Physiological Human)
 - » Possible speaker: VPH Institute – Dr. Marco Vicceconti
 - » Technologies needed for VPH from image treatment to huge amounts of information integration. Supercomputing capacity. Cloud computing as an alternative.

- » Round table discussion
 - » Content, eHealth and the FI - Towards new paradigms for integration, use and communication channels
