

FUTURE  
INTERNET  
ASSEMBLY  
GHENT

**Part of the Future Internet conference week**

16-17 December 2010

**Future Internet Conference Week**

**Not business as usual**

## The goal

### Ensure relevance of our research

Twitter reaches  
100 million users

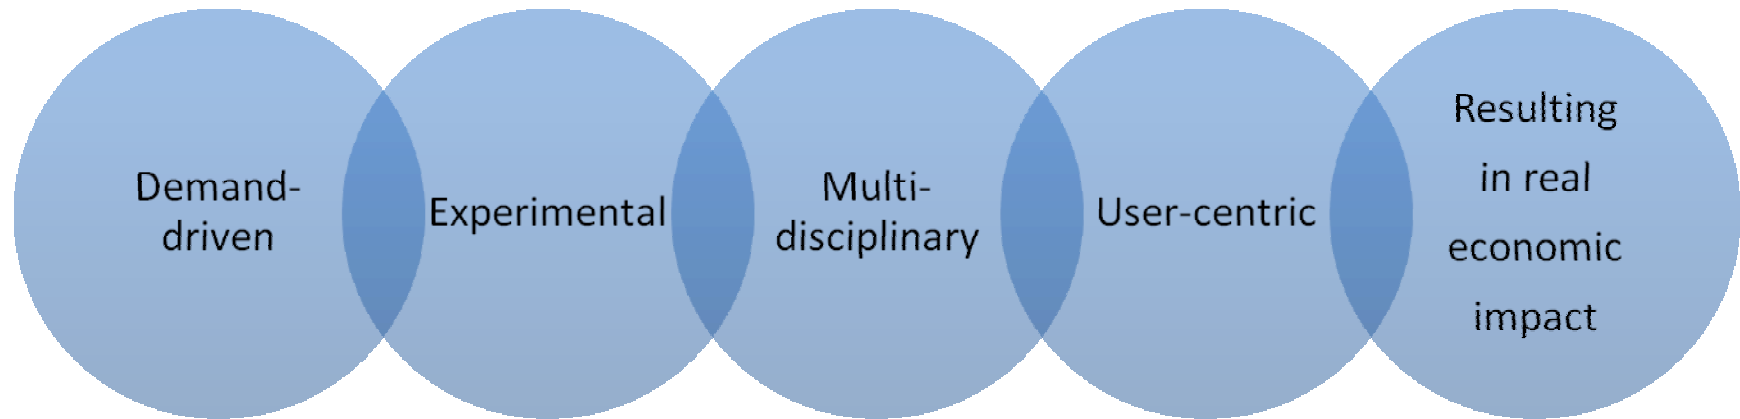

Apple delays international  
roll-out of iPad due to  
heavy demand

Alcatel-Lucent  
announces mobile  
advertising platform for  
operators

Palm may be  
purchased by Huawei

## The goal

Ensure relevance of our research

# Future Internet Conference Week

13-17 December 2010 @ Ghent

- Focus: Internet Services and Content as the key driver of ICT
- Goal: a week of fact-finding and networking between different organisations & initiatives in this field, enabling us hopefully to 'think out of the box' and learn from each other
- Organizing parties:
  - FIA – Future Internet Assembly
  - FIRE – Future Internet Research Experimentation
  - NESSI – Networked European Software & Services Initiative
  - IBBT – Interdisciplinary institute for BroadBand Technology
  - Bell Labs
  - ENoLL – European Network of Living Labs
